

Using Nisga'a Language

Using The Nisga'a Language:

- 1 – Open the text editor of your choice (It currently does not work in Microsoft Word)
- 2 – In the top right-hand side of your menu bar, you should see , click on it and change it to  in order to activate the Nisga'a Language
- 3 – Now select a compatible font. For a list of compatible fonts please go to <http://tech.nisgaa.bc.ca/downloads>, and click on “Nisga'a Compatible Fonts”
- 4 – You can now type using Nisga'a characters by holding down the “Option” key on your keyboard when you want to type a character
